

# TP Series (Plotter)

---

Cutting

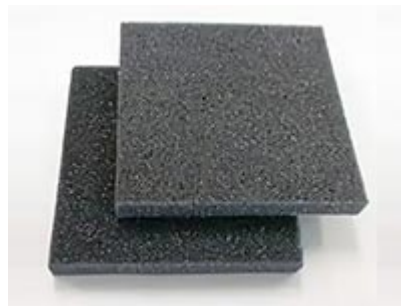

Rubber/Packing

## Product Image

## Main Specifications

## Main Specifications

<b>Effective Processing Area</b>	1200mm×1200mm
<b>Oscillating Head</b>	Electric Motor + Cam Type

<b>Oscillation Stroke</b>	5mm
<b>Head Speed</b>	60m/min (1000mm/sec) dry
<b>Material Separation Method</b>	Vacuum Suction
<b>Weight</b>	1000kg

## Features

Table size is manufactured to customer's specifications.

- Improvement of adhesion using an original method
- Equipped with software for yield optimization
- CNC Control

## Options

- Pressing & Cutting Head
- Pen Tool
- Laser Pointer

## Inquiries

Since we can also make appointments for meetings upon request, please feel free to contact us.
